De Lancey Nicoli's Prospects of Success Brighter Than Ever.

men who shall transact its business and decide upon the policy of its term. The campaign has been a short one, but hard-fought and exhausting. The reaction atter the struggle that had been going on for a the morning hours, and the votes came in very slowly. Not more than half the usual vote at that hour had been cast at most of the polling places at 9 o'clock, and

the workers about the polis declared themselves to be wholly at sea as to the result. At every one of the Si2 polling place to be wholly at sea as to the result. At every one of the Si2 polling places here were booths and workers for the Republicans, Coanty Democrats, Tammany Democrats Citizens' Committee of One Hundred and the United Labor Party. In most of the downtown districts and in many of the polling precincts above Fourteenth street were to be found men carrying bags of ballots and wearing broad white badges

bearing the inscription "Progressive Labor Party." The Irving Hall Democrate have booths But the labors performed in ordinary years by the "workers" have been very largely assumed by by the voters themselves this year, for never in ory of New York politics has the voter been

afforded such abundant opportunity to prepare his ballots at home. Each of the parties has served every voter in the city by mail with its tickets and pasters for the various candidates, and many of the candidates have delivered their own tickets and pasters als

by mail. The result is shown to-day in the almost

universal prevalence of the puzzling pocket " ballot. VEST POCKET BALLOTS.

This is significant, too, of a determination on the part of the citizens of this town to select their candidates for themselves, and without the aid or intervention of the ward 'heeler" or '. worker." The vest-pocket voter s a terror to the practical politician. He cannot be reached, and his vote is always a doubtful on until it is counted. It is an axiom of the politicians that the vest-pocket voter is not theirs.

When party men follow the usual custom of take ing their ballots from the booth of their party, the workers know how they vote. The act is guaranteed that the citizan is voting "straight."

It is another conceded fact in politics that the man with the vest-pocket ballot has a reason for ming to the polls with his ballots prepared. The word "prepared" means nothing if it does no mean that the ballot is altered by "scratching" and the use of the paster.

There is one method of arriving at the probable result, and that is to ascertain how the party leaders are working. This is determined by the performances of their known lieuten ants and their accredited followers. And it may here be said that the Republican workers are working honestly in the main thi morning, "peddling" nothing but the straight name of De Lancey Nicoll for District-Attorney, and Randolph B. Martine for Judge of the Court of General Sessio

RUMORS OF SELLING OUT.

Early in the day, however, it was found that in the Eighth Assembly District ''Johnny'' O'Brien's strongnold, "Barney" O'Rourke's men in several election districts were passing out Republican county tickets bearing the names of the United Democratic nominees for every place except Coroner, Denis Shea alone of the Republican candidates remaining on the ballot.

In " Barney " Biglin's District, the Eighteenth, the workers are "pulling straight" generally. but at some of the Republican booths an Eventue WORLD reporter obtained sets of tickets that were all right, except that in place of the name of Daniel G. Rollins, for Supreme Court Judge, was found the name of Morgan J. O'Brien, the Demotratic nomines. The reporter applied three times at one booth at intervals of fiteen minutes, and Inally received a "straight" Republican Judiciar

THE LABOR VOTE.

"The Labor movement acts like measles," s politician remarked this morning. 'It seems to be necessary for it to run through a district, after which it is not seen."

In some districts where George was stronges last fall the vote for the United Labor candidates showed a large falling off in the morning, while in those districts where there was a small vote for George lasi fall the entire Labor ticket received a heavy vote.

The Eighteenth Assembly District is a sample. Here the McGlynn parishioners nearly all live. They did not turn out very strongly for Henry George in 1886, but to-day they seem to be voting the United Labor ticket entire, and the result may be disastrons to Pitzsimons and Gordon, the United Democratic nominees for Alderman and member of Assembly respectively, though the District has generally been good for 5,000 Democratic majority. The employees of the Keystone Watch Company marched to the polls in a body at 10.80 o'clock behind a band and bearing banners inscribed, " We Want the Earth," and with other Labor party mottoes. It is understood, however, that they are about equally divided between Post and Nicoli for District-Attorney.

An EVENING WORLD reporter approached one of these bagmen at a Third avenue polling place. He was a fat-faced young man of eighteen or twenty

"How goes the battle?" queried the reporter cheerily.

There was only a strong stare in reply. " How is the Progressive Labor vote? Are your people polling their share here ?" The young man slowly and dreamly shook his head. "I nicht onerstan," he said.

THE PIGHT ON DISTRICT-ATTORNEY.

The United Democratic booths are generally manned by County Democrats and they are doing all they can with the few citizens who have not come to the polls with their ballots pro pared. The Tammany men are devoting them selves more particularly to the rest of the ticket. service for Nicoli and Martine are doing splendid work for Nicoll, and their efforts will bear results. Irving Hall men are also active for Nicoll, and great confidence is expressed in the belief that the vest-pocket vote is about solid for the young prose-

deciding the question of supremacy between boss-ism and the better element in both parties. It is noticeable that the vest-pocket vote is being oas nost generally by men who have been heretofore identified with the Democracy, and that is considered significant of success for Nicoll.

It is believed that the vest-pocket ballots point almost entirely to a split on District-Attorney, because the candidates named for the other offices by all parties are in the main unexceptionable men and there has been no decided opposition within his party to any of them. Locally there will be splits for each of the other candidates. but probably no other split. The battle has been almost entirely over the candidates for District-Attorney, and the contest at the polls is but a "wind up" to the great battle.

PEW PROHIBITION WORKERS. A singular thing is the scaroity of Prohibition workers at the polls. That party has, however, performed its work thoroughly in the past week, and it is conceded that it will poll a much heavie vote than last year. Its men are of a class who make up their minds before election, and that decision cannot be altered at the polls by the workers. They are voting largely for Nicoll.

NICOLL PASTERS IN DEMAND. Nicoll pasters were in brisk demand early in the day. In some Assembly districts—notably the Seventh—the early voting gave indication that the Prohibition vote for District-Atorney would be almost entirely wiped out in favor of De Lancey Nicoll. Prohibitionists voted the straight party ticket with the exception d District-Attorney. They preferred the chanc of helping to elect Nicoll to the certain defeat of Mr. Manierre, their party candidate. Many strong Tammany men in the Seventh District used Nicoll pasters.

day's election will be decided in all probability by the Labor and Prohibition votes. The old party lines are quite sharply drawn, there being no general split against any candidate, and not much is heard of selling out except, as stated, in the Eighth District. In a few precinct are found Democratic State tickets bearing the name of Col. Fred Grant in place of that of Frederick Cook, but they seem to be in the hands of Republicans who are not well enough known to be identified with any party y the average voter. It is not believed tha of them have been successfully paimed off. They row, and the Democratic workers are fully ap-

prised of their presence. NICOLL'S BOOM IN HARLEM. The sun, struggling through a summer-like mist,

I am satisfied that if the rest of the town stand by the young candidate for District-Attorney as well as we are doing it up here there will be no doubt of his election.

BARLY VOTES FOR NICOLL.

The big apartment-houses which fill the streets north and south of One Hundred and Twenty-fifth street were alive at an unusually early hour, and heir occupants hastened to the polls in order to get there before the rush, but they found crowds ahead of them. This was notably the case at the poiling - place at No. 409 West One Hundred and Twenty-fifth street. The officer in charge said that the avidity to vote to-day was unprecedented. He would not commit himself as to the way things were going, but referred the reporter to a man on the sidewalk in front of a booth which bore a picture of De Lancey Nicoll. This worker said: ing splendidly for Nicoli here and our booth is the liveliest of the lot. I have no doubt that Nicoli will have a big plurality over Fellows in this District. "

"Do you hear of any selling out business going on 7" he was asked.
'' No, not in this distdict. The party lines are

drawn too close and party feeling runs too high for that here. "

CHANGING PROM POST TO NICOLL. A walk through One Hundred and Twenty-fifth street towards Third avenue discovered the same scenes of bustle and activity, and as the day advanced the bustle and activity increased in a avenue and One Hundred and Twenty-fifth street the Nicoll workers were especially diligent, and was reported that many who had made up their minds to vote for Post were won over to the Nicoli

It was said that there was apparently little trading going on. At the police station on One Hundred and Twen-

The lodging-house tramps who were regis-tered by the hundreds to defeat the will of the honest voters look wistfully at the ballotooxes from a safe distance. The presence of the police and of the De Lancey Nicoll workers with full lists of the fraudulent voters deterred them from attempting to deposit ballots.

Police Justice Patterson and the Republica machine appear to be working Nicoll straight. There are followers of Henry C. Bott, who is running for Civil Justice, who are trading off Nicoll, out Justice Patterson says that Micell will carry the district.

Police Commissioner McClave says that in the Nineteenth Assembly District, where he voted, seven out of ten Democrats called for De Lancey Sicoli tickets. He feels confident that Nicoli will win with case unless open and notorious bribery or rank treachery is resorted to by the bosses of the Fellows crowd.

BROWN-STONE SUPPORT FOR NICOLL. Mr. Nicoll is polling the full Republican vote in the Seventh, Eleventh and Twenty-first Asembly Districts, which are Republican strongholds. He is also securing fully of the Independent and the anti-machine Democratic vote. There has been a demand for Nicoll pasters in great portion of the city bounded by Fourteenth street, Harlem River and Rightl venue. It is known as the brown-stone portio of the city, and the Democrats are practically vot ng solid for Nicoll.

In the Gramercy Park part of the Third Assembly District Mr. Nicoli is polling the full Republican strength and 50 per cent. of the Democratic vote. In the lower part of the district he is not rece many Democratic votes and the Republicans are voting for Fellows.

CHEERING NEWS FROM THE TWENTY-THIRD. Mr. Nicoll will receive at least three thousand Democratic votes in the Twenty-third Assemby District, and it is said that the Re ans, both machine and anti-me are supporting him loyally. The Labor vote in this district will also be strong. some of the leaders of the Labor party think that their vote will be larger than that of Tammany Hall and the County Democracy.

There is every indication that Nicoll will carry he Twenty-third District by a round plurality.

COMMISSIONER CROKER'S VIRWS.

Commissioner Croker was at Tammany Hall a 11 A. M. to-day. To an Evening World reporter he said: "It is too early in the day to make a prophecy. I went around the polls of the Eighteenth District this morning and found everything quiet, was told by the Tammany Hall Hall and County Democracy workers that the Republicans were asking for Post pasters. Mr. Nicoll will get some Democratic votes in the western part of the district. I don't think the Labor party is polling as heavy a vote in my district as they did last year. Their vote has not yet come out. Probably the workingmen o'clock the Labor party was in the Eighteenth District. I think Col. Fellows will be elected. From what I can hear Mr. Nicoli is not getting much of a below Fourteenth street. may be mistaken. The quiet vote is a very quiet vote. You do not know anthing about that vote until it is counted."

"BHED" SHOOK THINGS NICOLL WILL WIN. Latest reports from uptown go to show polling the bulk of anti - machine Democratic vote, while a percentage of the Republican downtown machine vote is said to have bee cast for Fellows. It is the general opinion politicians who have visited of the uptown and downtown districts that Mr. Nicoll will be elected if he polls the votes of 85,000 Democrats. He can then afford to lose the votes of 10,000 Republicans.

"It is the quiet vote that will settle this fight," said Mr. Sheridan Shook at the Morton House at 2 o'clock. "The shouters have voted for Col. Fellows. The people, Democrats, Republican and Independents, who have voted for Mr. Nicoli deposited their ballots and went about their busi ness. I think Mr. Nicoll will be elected by this

The Progressive's Campaign Committee Sas guine of His Election.

At the Progressive party's headquarters, 10 Stanton street, reports from the Tenth District, the Socialist stronghold, indicated that the deal made by Boss Power "Billy" Martin and others, the Progressives are to cast their votes for Fellows for District-Attorney in lieu of having their campaign expenses paid by the Boss, was in full sway in every election district.

John Swinton's vote for State Senator was reported large up to 11 A. M., and the Campaign

committee was sanguine of his election. The Republicans in the Tenta District were said to be trading votes on the District-Attorneyship in order to said heir State ticket, but many Democrats were voting for Nicoli as an offset.

The Progressive men at Headquarters were even more sanguine at 2 o'clock that Swinton would be elected than they were in the forencon. Their greatest interest seemed to centre in the Tenth Assembly District, where many Socialists live. Capt. Allaire's men at 62 Essex street had reached

The Democratic bosses have surrounded the olls with workers, whose sole aim it is to get votes for Fellows, and who offer the Republicans in return votes for Alexanblyman, Senator, Alderman and Civil Justice.

The Steckler-Botty fight also affords a fruitfu opportunity for the bosses to put in some of their fine work.
